

The Leadership Tree is essential to the ministry of Young Life Africa. Every leader gets one “leadership tree” on which each leader lists three kids to be discipled. Slowly and steadily, you have a huge group of leaders who are rooted in the Word, following Christ and making disciples of their own. You don’t have to replant these trees – they last for eternity. They are producing fruit; fruit that will last forever.

Want to develop your own Leadership Tree? Download this pdf and you too can begin making disciples who make disciples.

Leadership Tree Mile Markers
