I have seen people coming to me with the Word of God, but I never listened before going to Young Life Campaigners camp.

Malawi Campaigner Camp

Levi moved to Malawi from the Democratic Republic of Congo at eight years old. He struggled with life in a refugee camp and had a hard time making friends. When he was 16, Levi began attending Young Life so he could travel outside of the refugee camp. What he encountered was beyond anything he had imagined. "When I arrived, I felt like I belonged. Everyone smiled and treated me like an old friend." At Young Life camp, Levi encountered Christ's love and accepted Jesus as his personal Savior. Now he's passionate about encouraging his friends and family to know Jesus.

Zambia New Leader Training

The team in Zambia began praying and set a goal to double the number of volunteer leaders. Later in the year, they held two new leader trainings in Ndola and Lusaka where 67 new leaders attended. Collectively this was the largest new leader training ever in Zambia!

New leaders learned the components of Young Life: camp, club, Campaigners and contact work. Then they practiced contact work, meeting and connecting with kids. One new leader exclaimed, "I used to feel like there was no way I could do Young Life, but now I'm clear on how to go and do it!"

IMPACT ONE.

Together

WE CAN
IMPACT MANY.
