The Impact

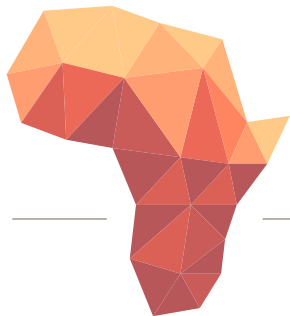

SOUTH AFRICA

When I joined Young Life in 2016, I was not involved in a local church and I was curious about Christ. Through Bible study, Young Life helped give me an understanding of who Christ is, and they helped me find a church to serve in. Young Life has played an important role in my spiritual growth.

Growing in Community

Samuel grew up in Tsakane, a neighborhood on the far outskirts of Johannesburg. He came to know Jesus through Young Life. As he grew in his relationship with God, Samuel began to reach out to his friends, Hammond and David, and they accepted Jesus into their lives as well! Now the three friends are ministry partners and spread the love of Jesus in their community. They meet regularly to study the Bible and pray together. These young men are passionate about growing in their faith and helping others in Tsakane encounter the love of Jesus.

Building Blocks of Faith

Five years ago, Helvi was invited to Young Life camp by her leader. Helvi loved going to Young Life and learned so much about Jesus, but struggled to fully commit her life to Him.

"My favourite lesson was given by Pierre, where he used Jenga blocks to illustrate the building blocks of a believer's life," Helvi shared.

It was then that Helvi realized she had the building blocks, but she needed the foundation. She gave her life fully to Christ and hopes to become a leader one day!
