The Impact

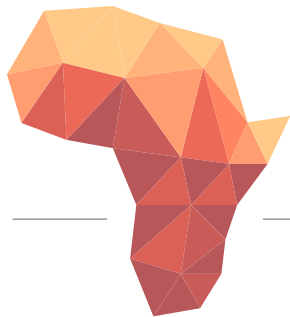

UGANDA

Since 2013, when Sam became a volunteer leader, I have seen him grow spiritually strong. He has led many teenagers to Christ and there is remarkable change in the lives of those teens.

New Ministry in Kumi East

After years of prayer and several attempts to establish ministry in the Ongino sub-county Kumi East area, the Lord answered by providing a committed leader, Oboro James. After being trained, Betty, a primary school teacher who has a heart for kids, joined his team at Alkororum Ongino Club. Betty is committed to training, and also mentors teenagers. Her contact work reports reflect her commitment by documenting the amount of time she spends with kids. We thank God for the gift of this ministry and leadership team!

Leader Training in Tororo

Leaders in Tororo participated in a refresher training course. The theme was, "How can we best reach more kids for Christ in the current health situation?" Each leader received a Bible to help them do Bible studies one-on-one during the lockdown when the schools are closed.

Three of the leaders, Isaac, Godfrey and Julius, are doing excellent contact work and leading new discipleship groups. They are working to raise more leaders. They keep one another and the kids they are reaching in prayer. It is amazing to see the growth in the midst of these challenging times.

IMPACT **ONE.**

Together

WE CAN
IMPACT MANY.
